

Sun Odyssey 409

JEANNEAU

This changes everything...

the new Sun Odyssey 409

During the development of the all new 2011 Sun Odyssey 409 the goal was clear ; take every element that embodies the Sun Odyssey range and make it better. The result is a yacht that is undeniably a Jeanneau. The key innovations include the complete rethinking of the deck and sail plan to make this boat, not only fast, but incredibly easy to handle. Down below, the attention to detail can be felt throughout. A contemporary interior design has been realised using the finest materials available. In addition, more choices of high-end fabrics and different flooring make the space infinitely customisable to each owner's tastes.

JEANNEAU
